SNA Software

CAPABILITY STATEMENT

SNA Software, LLC • 424 E. Central Blvd #690 • Orlando, FL 32801
Nicholas Pisano • npisano@sna-software.com 866-389-6750 ext 101 • www.sna-software.com

CORE CAPABILITIES

A small, veteran-owned business (VOSB), SNA Software LLC (SNA) provides the Proteus Envision Integration Solution. This solution consists of unique technologies that combine the power of Business Intelligence in a no-code/low-code open systems environment, COTS ETL, and a set of pre-configured application workspaces that digitizes the entire Project Management Lifecycle.

OFF-THE-SHELF SOLUTIONS (COTS)

Comprehensive Project, Program, and Portfolio Analysis Lifecycle • Business Intelligence • Data Integration and Visualization
DoD and GovCon Regulatory Compliance • Data Extraction, Transformation, and Load (ETL) • Rapid Application Configuration
Qualitative and Quantitative Project Risk Management

PAST PERFORMANCE

NASA Aeronautics Research IASP EPFD Project

U.S. Space Force Space Systems Center (SSC)

Navy Engineering and Logistics Organization (NELO)

Defense Contract Management Agency (DCMA)

Federal Aviation Administration (FAA)

NASA Glenn Research Center

GE Aerospace

BAE Systems

Please contact us if you need POC information for any of the above

COMPANY FACTS

SNA Software was formed in February 2007. We are a profitable and growing company, currently with ten employees.

Corporation Type: Delaware Limited Liability Corporation
UID: CBFWJK9JHNG7
DUNS Number: 795600993
CAGE Code: 4Q7F5
GSA Contract: 47QTCA21D00DA
Eglin Air Force Agile EWAAC IDIQ: FA865622DA048
AFMC Innovation IDIQ: FA 868423DB097
Federal Certifications: SBA - Small Business, VA Veteran-Owned Small Business

DIFFERENTIATORS

- Digitization of entire PPM Lifecycle
- Agnostic and compatible with all data types and provides data visualization, analysis, quality assurance, two-way communication to any data sources, and organic reporting
- Open low-code/no-code configuration layer
- Over 68+ COTS IPPM application workspaces
- IPPM, Probabilistic EAC, DCMA's DECM test metrics, IBR and program data quality review, integrated risk analysis, PM financial analysis, systems analysis, contract management, project management goals and objectives, contract & executive management, and complete schedule capture and analysis
- COTS EnvisionData PPM data transformation and integration (ETL)
- Single Trusted-Source of Truth that facilitates Knowledge Discovery in Data (KDD)
- Reduces and in most cases eliminates direct labor in data transformation and analysis, and provides a timelier in-depth and quality data intelligence

NAICS CODES

• 513210	• 541611
• 518210	• 541618
• 541511	• 541990
• 541512	• 611420
• 541519	• 611430

Qualified as small business in all NAICS

PROTEUS ENVISION INTEGRATION SOLUTION

The Proteus Envision Integration Solution consists of unique technologies that combine the power of Business Intelligence in a no-code/low-code open systems environment, COTS ETL, and a set of pre-configured application workspaces that digitizes the entire Project Management Lifecycle.

Proteus Open BI Platform Key Features

The Proteus BI platform is a unique open-systems application that possesses a configuration layer that allows for the construction of application workspaces that persist. Using Agile methodology, new functionality is delivered to the customer when and where it is needed in a matter of days or weeks, instead of the normal bi-yearly upgrade cycle of hard-coded purpose-built applications.

- Enterprise Integration
- OPEN Systems
- No Code Low Code
- .NET
- User Defined Visualization
- Native Reporting
- Data Agnostic
- OPEN Data
- Security

Proteus OPEN BI PLATFORM + **ENVISION INTEGRATION (ETL) SOLUTIONS** + **PROTEUS ENVISION APPLICATIONS**

Envision Data Integration (ETL) Solutions

Set of Extract, Transform and Load (ETL) solutions to normalize and post data to open SQL database tables to enable and expedite integration, visualization, analysis and reporting.

- EnvisionData
- EnvisionProject
- EnvisionTemplates
- EnvisionUtilities

Proteus Envision Applications

Proteus Envision Applications are configured workspace solutions that persist using the Proteus BI platform as a Single Source of Truth. The COTS Application Product Sets below integrate data across all project management domains, purpose-built by users for how users perform their work and manage the project, while maintaining the ability to be modified or tailored in an open-systems environment.

- Integrated Project, Program, & Portfolio (IPPM)
- Advanced IPPM (IPPM/IPMDAR)
- Probabilistic EAC
- DCMA DECM
- IBR & Program Data Quality Review
- Risk Analysis
- Systems Engineering
- PM Financial Analysis
- Contract & Executive Management
- Schedule Analysis from MS Project
- Envision Innovation & Review

	Hybrid Open BI Configuration & Persistent Agile-managed Configured Applications	Agnostic COTS Data Integration (ETL)	No-Code/Low Code Comprehensive PPM Domain Solution	Open Data Structure from ETL to DB	Not Labor Intensive	User-based visualization options from .NET library
Proteus Envision	← ALL FUNCTIONALITY IN A SINGLE COMPREHENSIVE SOLUTION →					
Deltek	Multiple COTS apps	Limited	Some COTS and Development Labor	Proprietary	No	No
Empower (EVM)	Single COTS app	Limited	No	Proprietary	Yes	No
